One Ray of Joy.

"And what kind of a filling do you want, my little man?" asked a kindly dentist of a small boy who had been suffering a dozen martyrdoms in the chair.

It was the first cheerful word the boy had heard for an hour.

"Gimme chocolate," he replied, brightening visibly.—American Legion Weekly.

Appeal to Intellect.
"Why did you introduce vaudeville in your campaigning tour?"
"My constituents," replied Senator Borah, "know more about the economic situation than I do. They are intelligent people, and I approach them as such. The brain needs rest. I am going to earn their gratitude by giving them a chance to take their minds off politics."

Thousands Have Kidney Trouble and Never Suspect It

Applicants for Insurance Often Rejected.

Judging from reports from druggists who are constantly in direct touch with the public, there is one preparation that has been very successful in overcoming these conditions. The mild and healing influence of Dr. Kilmer's Swamp-Root is soon realized. It stands the highest for its remarkable record of success.

An examining physician for one of the prominent Life Insurance Companies, in an interview on the subject, made the astonishing statement that one reason why so many applicants for insurance are rejected is because kidney trouble is so common to the American people, and the large majority of those whose applications are declined do not even suspect that they have the disease. Dr. Kilmer's Swamp-Root is on sale at all drug stores in bottles of two sizes, medium and large.

However, if you wish first to test this great preparation send two cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention this paper.—Advertisement.

BUSINESS SHOWS AN IMPROVEMENT

LABOR SITUATION NEARLY NORMAL WITH LESS UNEMPLOYMENT

ARE PAYING BETTER WAGES

Prices Remain Constant, Industry Shows More Production and Building Gains—Crops Show More Deterioration.

Washington.—A highly optimistic summary of general business and financial conditions throughout the country for the month of September just issued by the federal reserve board.

The chief development of the month says the report, has been the improvement in the labor situation. The amount of voluntary unemployment has been greatly reduced, and wages have shown a distinct upward tendency.

Other outstanding features of the situation as revealed by the board's report were:

Mining output increased about 3 percent during August and has shown a tremendous expansion during September, due to the reopening of most of the bituminous and anthracite coal mines.

Manufacturing is also being maintained at relatively high levels, increased production being reported in most important industries.

The crop prospects are somewhat less encouraging than a month ago, as there has been a rather general deterioration of the growing crops.

Both wholesale and retail trade showed marked expansion during August.

Financial conditions continue to be very sound, while domestic money rates show a slight upward tendency.

The general level of prices has remained constant during past month; the August index number of the federal reserve board being the same as that for July.

"Manufacturing was slightly curtailed in August, but has recovered during September," said the report.

"Iron furnaces and steel mills are increasing their rate of production to satisfy the continued large demand of railroads and automobile companies. The market for non-ferrous metals has been unusually strong and reflects a further increase in mine output of copper and lead. Cotton mills and knit goods factories have increased their output and woolen machinery is slightly more active while August silk consumption was the largest for any month since 1919. The continued building activity has resulted in an improved demand for lumber cement and other building materials.

"The volume of employment has increased during September in accordance with the return to work of several hundred thousand miners, railroad shopmen and textile workers. The period from Aug. 15 to Sept. 15, moreover, contained by far the largest number of wage increases reported in any month since the decline of business activity in 1920."

Kemal Will Be Missed.

LABOR PLANS TO OUST DAUGHERTY

GOMPERS SAYS ATTORNEY-GENERAL LEFT LIKE A THIEF IN THE NIGHT.

SAYS INJUNCTION ILLEGAL

Constitution Violated and Clayton Act and Appropriation Bill Set Aside. Resolution to Assist in Removal is Adopted.

Washington.—Organized labor opened here a nation-wide campaign for sustaining the impeachment of Attorney-General Daugherty with the intention of making a determined fight to that end. Samuel Gompers, president of the American Federation of Labor, charged in the principal address that Mr. Daugherty left Washington for Chicago "like a thief in the night" to obtain his strike injunction.

The court decree, according to the veteran labor leader, violated not only two sections of the constitution and the Clayton act, but the provisions of the department of justice appropriation bill that none of the money appropriated to the department should be used in prosecuting labor organizations engaged in a struggle for better wages. Mr. Gompers charged that the injunction was also in contradiction of the Newlands act guaranteeing the right of labor to strike.

The meeting here was in response to the call of the executive council of the American Federation of Labor for a demonstration against the attorney-general on October 1. Similar meetings, it was announced, were held in hundreds of towns and cities. Following the address by Gompers the Central Labor Union of Washington unanimously adopted resolutions to assist in removing Mr. Daugherty from his office.

Gompers reiterated his declaration that the president is consistent in urging "teeth" for the railroad labor board. He pointed out that Mr. Harding as a senator was paired in favor of anti-strike provisions in the Transportation act of 1920.

Labor leaders declared after the meeting that an effort is being made to credit the administration with the rail strike settlement by statements that the injunction was the controlling force in bringing about the agreement. They emphatically deny this, asserting that peace came through negotiations rather than federal intervention.

Little Rock, Ark.—Resolutions condemning the injunction obtained by Attorney-General Daugherty against striking railway shop crafts as a "trespass on the constitutional American rights of free speech, free assemblage and free press" were adopted at a mass meeting of union members and sympathizers.

FIFTY YEARS AGO

A young man who practiced medicine in Pennsylvania became famous and was called in consultation in many towns and cities because of his success in the treatment of disease. This was Dr. Pierce, who finally made up his mind to place some of his medicines before the public, and moving to Buffalo, N. Y., put up what he called his "Favorite Prescription," and placed it with the druggists in every state.

Dr. Pierce's Favorite Prescription has long been recognized as a tonic for diseases peculiar to womanhood. After suffering pain, feeling nervous, dizzy, weak and dragged down by weaknesses of her sex—a woman is quickly restored to health by its use. Thousands of women testify that Dr. Pierce's Favorite Prescription has entirely eradicated their distressing ailments.

More recently that wonderful discovery of Dr. Pierce's, called An-uria (for kidneys and backache), has been successfully used by many thousands who write Dr. Pierce of the benefits received from their backache, rheumatism, and other symptoms of uric acid deposits in joints or muscles have been completely conquered by its use. Send 10c to Dr. Pierce, Buffalo, N. Y., for trial pkg. of any of his remedies, or write for free medical advice.
